

Rosedale Buildings Anti-vandal Buildings

Rosedale has developed a **STEEL ANTI-VANDAL BUILDING** with a modular framework, allowing for unlimited design all compliant to current regulations.

All of our buildings are available in a variety of external finishes and can be further enhanced with features such as brick finishes, pitched tiled roofs, stone aggregate, plastic coated steel, etc...

By utilising the experience of our Design team, your required internal layout and fit-out is completed off-site and the building delivered ready to use.

Our modular steel anti-vandal buildings can be used for sports facilities, allotments and recreation and vulnerable exposed sites.

Our Range

Our Philosophy

Where planning restraints are a problem we can also offer traditional alternatives such as brick exteriors and pitched tiled roofs. With over 20 years experience behind us we guarantee your satisfaction...

...after all, your satisfaction is our future!

Whether your requirement is for standard Jack Leg units, classrooms or luxury multi storey offices the Rosedale philosophy remains the same. A no nonsense, personal but professional relationship with our clients pledging quality products within budget, within programme, to agreed specifications and with a prompt and courteous after sales service.

Restricted budget? No worries!
We supply a range of refurbished buildings to suit all budgets and the quality remains at the highest standard.
